

Weed Abatement Using Living-Systems: Goats and Sheep

Using goats to perform weed abatement by grazing is an alternative to herbicide application and mowing. The herd of goats will eliminate dry grasses, weeds and woody growth, which are all potential fire hazards.

This is a listing of some of the contractors who do this type of abatement work, it is presented as a convenience to the public. This list is not a recommendation of any individual and should not be considered an endorsement by the County of Santa Clara. There are other individuals doing the same type of work. Please check the phone directory listings or search the internet.
